

外形尺寸与地脚安装图 OVERALL DIMENSION

主要技术参数 MAIN TECHNICAL DATA

型号Type	CM18X2B	CM21X2B
处理量Output (t/h)	3~6	3.5~8
主机动力Power (kw)	55	75
配置动力Required power (kw)	11+0.26+1	15+0.26+1
负压 Negative pressure (mmH ₂ O)	150 ~ 250	150 ~ 250
风量Air volume (m ³ /min)	45~50	50~60
机重 (不含电机) Weight (kg)	1400	1550

注：配置动力是抛光机配套的风机、水泵、水箱加热器功率
Required power: It includes the power of blower, water pump and tank as well as heater.

通过ISO9001国际标准质量体系认证

CM18X2B CM21X2B 双辊大米抛光机
RICE POLISHER

湖北永祥粮食机械股份有限公司

HUBEI YONGXIANG FOOD PROCESSING MACHINE CO., LTD.

CM18X2B/CM21X2B 双辊抛光机

CM18x2B/CM21x2B 大米抛光机是永祥集多年研发大米抛光机的专业技术，融合现代大米抛光要求洁白光亮的新理念、新标准，精心制造的新型双辊大米抛光机。该机除关键部件采用国际化配置外，还采用独特的机械结构，用户可以根据抛光工艺的要求，灵活确定加工流程，既可双辊串联使用，又可双辊并联使用，是一种能够适应不同类型碾米企业生产需要，具有较高性价比的大米抛光设备。

CM18X2B/CM21X2B
双辊抛光机

CM18X2B/CM21X2B RICE POLISHER

CM18X2B/CM21X2B rice polisher is a new type product integrated professional technology of many years and modern new notion of polishing. Besides equipped with international brand parts as key components, its mechanical construction is very unique. Users can decide processing flow themselves according to the requirement of polishing, either using in series, or in paralleled. It is suitable for needs of various rice millers, having optimal cost-to-benefit ratio.

● 光滑耐磨的组合抛光辊配合多规格耐磨筛片，使本机能够满足不同粒型大米抛光的工艺要求，抛光后的大米精度高、增碎少，表面洁白透亮。

● The application of combining high wearable polishing cylinder and sieves with many specifications meets technological requirements of various type of rice polishing. Polished rice has high degree and becomes lucent on its surface, less broken rice increment.

● 配备多方位风门调节装置和负压表以及多位喷雾装置，使抛光效果控制在最佳状态。

● The application of air gate adjustment device, negative pressure meter and mutilposition spray device make polishing effect optimal.

● 本机双辊可根据抛光工艺的需要，既能并联使用，亦可串联使用。

● According to the requirement of polishing, it is used either in series or in paralleled.

● 本机双辊机械零件可以通用互换，方便维修。

● The parts for double cylinders can be exchanged, easy to maintain.
